Fixing the minimum extent of land to be granted for coffee cultivation; and issuing instructions in the matter of granting lands for purposes connected with coffee cultivation.

Proceedings of the Government of His Highness the Maharaja of Mysore, (Revenue),—dated 31st January 1893.

READ :—

(1). Letter No. 595, dated 13th February 1892, from the Deputy Commissioner, Kadur District, stating that till recently it had been the practice to entertain applications for not less than 10 acres out of a large number, for coffee cultivation, that the Order No. 4807—14, dated the 18th July 1891, directing Kharab lands to be assessed and granted to applicants although assessed waste lands are available, has been understood to authorize the grant of lands for coffee cultivation without any restriction as to minimum area; and that the Superintendent, Revenue Survey, has however taken objection to the grant of coffee lands less than 5 acres in extent, relying apparently on Order No. 9733-9—281, dated 1st December 1890, an abstract of which is printed in the Proceedings book for December 1890, and soliciting definite orders on the subject.

(2). Letter No. 519, dated 5th November 1892, from the Deputy Commissioner, Hassan District, stating that para 1 of Rule XXVII of the Land Revenue Rules relating to sub-division of survey fields does not seem to apply to the case of lands applied for for use as drying grounds under Rule 12 of Appendix E; and soliciting orders regarding the grant of 38 guntas of gomal land, Survey No. 3, in the village of Ballu in the Manjarabad Taluk, to one Basavegauda for use as coffee drying ground.

(3). Docket No. 239, dated 12th December 1892, from the Deputy Commissioner, Kadur District, soliciting sanction to the grant of 36 guntas, out of gomal land, Survey No. 62 in Haliyur, Chikmagalur Taluk, to one Manjappa for building purposes in connection with coffee cultivation.

No. 13450-2—R. F. 261-92, DATED, BANGALORE, 31ST JANUARY 1893.

ORDER THEREON.—The rules relating to sub-division contained in Section XXVII of the Mysore Land Revenue Rules do not apply to lands taken up for coffee cultivation under the Rules in Appendix E. The local authorities however found it expedient to discourage applications for very small plots of land, and upon the representation made by the Members of the Dasara Assembly in 1890, it was decided that the minimum area for new lands to be given out for coffee cultivation out of large numbers should be fixed at 5 acres, and this was intimated in the order referred to by the Deputy Commissioner of Kadur, No. 9733-9—281, dated the 1st December 1890. Accordingly the minimum to be hereafter observed will be 5 acres.

2. The case of lands required *bonâ fide* to be used as drying grounds, pulper buildings, &c., have to be specially dealt with, as, under Section 12 of the Rules in Appendix E, the Deputy Commissioners are competent to grant such extent of Kharab land as they deem proper up to the maximum limit prescribed therein, for the purposes indicated above. In making such grants, Deputy Commissioners will take into consideration the extent of the coffee holding of each applicant, under cultivation and his requirements. When such grant involves the disposal of any portion of lands assigned for special purposes under Section 39 of the Mysore Land Revenue Code, the previous sanction of Government should be obtained therefor.

3. The grant of portions of free pasture lands, to Basavegauda and Manjappa, recommended by the Deputy Commissioners of Hassan and Kadur in their letters Nos. 845 and 289, dated respectively 9th March and 13th December 1892, is sanctioned as it is reported to be necessary and unobjectionable.

Regarding certain assessed and gomal lands allotted as Hittals in favour of the inhabitants of the Sollibail Kasaba village in the Koppa Taluk —

× Paper-Rec 5 LAST REFERENCE.

Letter No. × 115 dated 27th August 189

from the Dy: Comm[r], Kadur

In May 1893 Several persons of the Sollibail Kasaba village put in darkhasts for gomal Survey × 26, which lies behind their houses, and requested that the extent required by each person might be granted on dry assessment for the purpose of utilizing it as hittal. Under instructions from the Amildar, the Shirastdar made a Kathela measurement of the portions

required by each person, and accordingly 23 plots were formed measuring in all 11 acres and 29 guntas. On Submitting the Blacksheets and the measurement list to the Dy: Commr, the Amildar said that the land was not fit for agricultural purpose and cattle did not graze there as it contained Scrub jungle and that if the land was given to the applicants, they would remove all the Scrub at their own cost and grow plantain trees thereon. So that the town would become clean. On replying, the Dy: Commr & Mr Sparkes observing that the land applied for was full of Cantana, which it was necessary to get rid of as soon as possible, informed the Amildar that the land might be given away on any rate provided they agreed to clear the land and

and keep the land clear. In the meantime, the Civil Surgeon at Chidambaram wrote to the Dy Commr to say that the village of Collebil was in a very insanitary condition and that steps should be taken to clear up the place as there was cholera prevailing there. The Amildar was directed to see to this at once; and during the Jamabandi in Novr 1893, Mr Sparkes having inspected the place, ordered the gomal land in question being given out as Kittal in anticipation of Sanction, and ordered the Amildar to submit an alienation statement. The Amildar obtained Materialias from the persons concerned to the effect that they should clear the Cantara before November 1893, and issued instructions to the Talati Mojamidar to measure and demarcate the portion required for each

Paper no. 3 Enclosure

2. After some further correspondence, the Offg: Dy Commr. Mr. Mahomed Ali observing that the lands proposed to be allotted as Kittal should either be Sold or given away on valuation, directed the Amildar to report the area allotted as Gran-than for the Sollibail village during the Survey Settlement and the additional area now required for the extension of the village site (excluding the extent of 5-27 already allotted as such), so that whole area taken

In the meantime, ie
in June 1894, Mr. A. T.
Clifford of Murgadde
Estate, Koppa Taluk
complained to the Dy
Commr that certain
persons to whom lands
were given as Hittals, had
grown coffee on such lands
+ that orders should
issue to the contrary;
and the Amildar was
asked to enquire and
report in the matter.
3. From the Amildar's
report it appears that one
Abdool Ajij has planted
550 coffee plants in his
Hittal land, of which 250
are about 2 years old bearing coffee to some extent
the remaining are small
nes about 1½ ft in height
+ that one Bheema Setty
has dug pits for planting

Persons house. According to the Majindar's measurement 4 acres + 26 guntas have been taken out of (Gomal) Survey No. 26, 22 guntas out of Survey No. 27 (accessed unoccupied) and 2 acres out of Survey No. 33 (Gomal). The Ameldar Submitted an alienation Statement of the above lands and Suggested to the Dy. Comm^r that they might be accessed at 4 or 5 annas per acre (the prevailing dry rates in the village).

Note. Survey No. 27 measuring 3 acres + 26 guntas was sanctioned to be allotted for building purposes in Govt. Pro: No. 5307-8 / 144 dt. 18th Nov. 1886, of which only 3 acres appear to have been built upon, + 22 guntas is now proposed to be allotted as Kittal.

coffee plants. Strict orders
appear to have been given
by the Amildar to prevent
any further planting of
coffee in the lands in
question. The persons
concerned complain against
this order saying that
it is the practice in the
Chikmagalur & Mudagere
Talukas to grow coffee
in Hittals, that likewise
they should be permitted
to grow coffee in their
Hittal lands otherwise
they will suffer great
loss as they have already spent
a good deal of money
in clearing the Lantana
Vole. From the Kateha
measurement list pre-
-pared by the Sheikdar
it will be seen that
the persons to whom lands
were allotted have indi-
-cated their desire to grow
coffee also alongwith
plantain trees,

having only dry
assessment-

4. The point for orders
now is —
Whether the lands
assigned as Kittals
may be given on dry
assessment permitting
the persons concerned
to grow coffee also —
The Auildar says
that it is not possible
to expect that all the
persons will keep the
lands clean, if they are
given away on assessment
that if they are ~~to be~~ to be
~~given~~ allotted as Kittals
on payment of a valuation,
valuable lands fit for
cultivation will have
to be given away &
then the persons cannot
be prevented from
growing any crop they
please thereon. The Jamadar
says that in many

cases the portion assigned
as Hittals are more than
what is required for
Hittal purposes, and
therefore the lands may
be given away on
dry assessment -
The Deputy Commr says
that the practice of culti-
-vating coffee in Hittals
is in vogue in the Kadur
& Hassan districts, that
if the lands are sanctioned
to be granted to the
owners of them on
dry assessment, they
are welcome to cultivate
these lands. He does not
say whether the owners
of houses who are willing
to take up the lands only
on dry assessment, can
be allowed to grow coffee
also without paying
any coffee rate on
the portions cultivated
with coffee, & whether

Such small areas
can be granted for coffee

E 7261-92 papers 24
& 31-1-93 which fix
the minimum extent
of coffee land to be
newly taken up at

The object of the Dy Com
in proposing to grant additional
Hittalu land appears to
be to effect sanitary
improvements by getting
rid of Lantana &: There
was no demand for more
land for extending the
present village site. The
proposed Hittalu appear to
be suited for coffee. Granting
land fit for coffee on other
than coffee tenure & that
on dry rates is not profitable
to Govt. Individually the
extent of each Hittalu is
below the prescribed mini-
mum. The cost of clearing
the lantana bush might
have been properly met
from Local funds. The
complaint of the European
planting community is
based on reasonable grounds.

12. The Commissioners have not yet received any Report from the Surveyor (Clause 10). The plots of Hillside are all below the minimum prescribed both for dry & for wet lands. It does not therefore seem advisable to levy any duty on those exceptional lands. In consideration of the Landowners being cleared, the Valuers have given the plots no question in anticipation of the reclamation of the lands does not therefore seem fair. The only question is how the Commissioners shall be empowered

The present Dy Commr Mr Lawe states that he has visited the village of Sollébi on several occasions since taking charge of the district that he has spoken to the planters and villagers in the matter of Hittals, and that he has come to the following conclusion:—

⊗ No-3318 of 12/12/99.

(1) It is most necessary that the villagers should have small Hittals attached to their dwelling houses.

(2) The village site should be considerably increased, as the population is rapidly increasing, as the village is the head-quarters of a large planting district, as a weekly market is held there, and as the Amildar holds his Court there at aleast once a month to dispose of cases under Act XII of 1859.

(22)

Note The existing population of the village is 568, & the extent of the Gauntan is 3-26

The Dy Commr submits a map shewing the situation of the existing public buildings, & the area available for the extension of the village site; and proposes to appropriate the following lands for the purpose:—

is not stated when and under what authority formal lands were appropriated for some of the above purposes.

As regards the present Hittals, the Dy Commr states that no coffee has been planted in them with the exception of one plantation up by one Abdul Aziz, and strongly recommends that the villagers (with the exception of Abdul Azuz) should be allowed to retain these lands under a distinct understanding that any man found planting coffee within his Hittal, will be liable to "instant ejection" from it. He further states that as the village is situated in the midst of dense jungle and lantana, it will greatly tend to the health and comfort of the villagers if they are allowed to clear,

Note. The Dry Commr. does not say how these lands should be assessed. It is a point for consideration whether it would be possible to prevent the holders of these Kittal lands from clandestinely growing coffee therein. Please see paper no. 6 in the file, in which the Honorary Secr. to the Northern Ryots Planters Association requested that the lands should be sold by public auction for coffee cultivation, to prevent coffee stealing. 18. The next question in connection with this is the payment of compensation to Abdul Azeez for loss of Coffee plants that had been raised by him in the land originally allotted to him. The Dy Commr states as follows:—

In Aug: 1893. Mr Sparkes sanctioned the grant of the land. In July 1894, a notice was issued by the Taluk officer under instructions from the Dy Commr, to stop any cultivation of coffee in the Kittal lands —

In Feb: 96. Govt ordered the resumption of the lands.

3. On the Kacha measurement list (Exhibit A) which accompanied this report, it is noted that the villagers seek permission to grow Coffee with other crops in the respective areas to be cleared by them, and subject to them ~~and~~ ~~more than~~ the due date for Coffee ~~or~~ ~~and~~

any other which they may raise in them.

4. On this report reaching me finding that some portions of the marginally noted survey numbers had already been assigned as Gramthan for Settlement and not being sure whether the areas now cleared were included or excluded in the Gramthan I thought it expedient first to demarcate the Gramthan before assessing any of the areas which were cleared of lantana.

5 In the meantime the diffrent

owners of houses commenced to cultivate coffee in the areas which they had cleared without permission. At the same time I received several letters from the Secretary to the South Kitui Native Planters Association praying that the coffee cultivation in these hills may be prohibited, praying that it would give them to evade the provisions of the Coffee Stealing Prevention Act.

6. As I however found that the owners of houses had cultivated coffee in the portions they had cleared without special sanction and were not willing to pay any enhanced rates as stated by them in the Kacha measurement list (Exhibit 4) I directed the Assistant to prevent the cultivation of coffee on the portions thus cleared of Lantana.

7. The practice of cultivating coffee

Coffee in Littalo is in vogue in the District as well as Harrar, and if the Government be pleased to sanction the grant of the areas mentioned in the accompanying statement out of the Equal lands in dry assessment to the owners of houses, they are welcome, in my opinion, to cultivate these lands, but a little doubt lurks in my mind, specially as I consider that Coffee tenure is distinctly separate from all other tenures, whether the owners of houses in the present case who are willing to accept the lands only on dry assessment can be allowed to grow coffee also in the areas which they have now cleared without being subjected to any coffee, later on the portions on which coffee is grown, and

and whether such small areas, which fall short of 5 acres, can be granted for coffee cultivation against Government Proceedings of No. 345 C-2 / 17.7.261-92 dated 31st January 1893.

8. Immediate Papers connected with the case are herewith submitted with a Perish.

Dewan

Sir

I beg to enclose copy of correspondence between this Association and the Deputy Commissioner of Kadur District, referring to certain lands adjoining the Sakleshi Bazaar which have been planted out with coffee by the ryots living in the Bazaar without being first applied to under rules although the regulations to be observed in such applications have been very great-ly simplified by many Associations to strongly remonstrate against lands being granted in this way, without notice to the neighbouring planters in accordance with the customary rules for the application of waste lands for coffee cultivation. It is well known to every body but the Judicial Officer the ryots living in the vicinity, are large speculators of native coffee in Sakleshi, apart the coffee of the Deputy Commissioner's tenants has by reason

Secretary Native Affairs, to grant the
necessary facilities for negotiations
between Chiefs and Natives with the
Native Land Purchase Ordinance.
The practice and usage of the Board
to the Executive of these Islands may
fully be known to the Secretary, but
I would not like to omit to bring
that very desirable object before your

you will be pleased to adopt
such measures as, in your judgment

effect it.

Sir

In accordance with a resolution passed at the General Meeting of this Association I was instructed to write to you for the following information regarding the hitherto recently planted with coffee in Sullebile

whether the land in question had been acquired in the ordinary way, by application and subsequent purchase at public auction, and

if so whether any notice was given of such auction

(2) whether the land has been granted for building sites, and whether it is accordance with Governm Rules that land granted for such purposes may planted up with coffee-

(3) That if the cultivation of coffee on the land in ques be illegal and unauthorise whether the Government is tend taking any steps to put a stop to it-

In reply to his letter soliciting certain information regarding Hillus recently planted with coffee in Jallebik, has the honor to state as follows

(1) That the land was not purchased in auction but as Santana [illegible] was encroaching on the village site, it was found advisable to cut it back, and to do so a certain portion of the gonal land behind the village was acquired and cut up into small plots which were handed over to the villagers on condition of their keeping the plots clean — There would have been no objection to granting this land to any Marhastan had application been made for the same previously. The sanitation of this village greatly affects the health of the surrounding estates.

(2) That land and not crop is taxed and accordingly persons are allowed to plant any land with coffee.

(3) That a reference has been made to Government regarding the taxing

Upon a scrutiny of the bill, it was found that Rs 150/- was charged for 4 guntas in favor of one Abdul Azizz Sab on account of the coffee plants he had put down in the land, and the undersigned however refused to allow any compensation for the coffee plants on the ground that Abdul Azizz Sab had clearly misused the land by planting it up with Coffee. The Amildar was directed accordingly to revise the amount of compensation payable to Abdul Azizz. As regards the other pieces of lands, the Amildar was instructed to adopt a reasonably liberal but uniform rate of compensation per gunta cleared of lantana and for bona fide cultivation other than coffee.

is now the head-quarters of a large planting District, is the place where a weekly market is held, and where the Assistant holds his Court at least once a month, to dispose of cases under Act XIII of 1859, the village site, should be very considerably increased.

2 In the enclosed map, I have marked in blue pencil, what I think will be necessary to be alienated for the purposes of the village site. Survey No 26 has already been taken up, as will be seen in the map - a Police Station, Hospital with in-patient ward, Hospital Assistant's quarters, Court house with native Kutcheri and other buildings, which form the main street of the village, having been erected on it. In No 38, the Post office has been built and a Local Fund well dug. In No 24 a large space has been cleared for the purpose of a market place

from planting coffee, he must have received notice one year after that such cultivation was prohibited and he could therefore only claim compensation for work done and coffee planted during the first year. I therefore reported that he planted 600 coffee plants during the first year, and taking these at a similar valuation of one anna per plant, he arrives at a total of Rs 37-8-0. This amount I propose paying to Abdul Aziz, and evicting him from his holding for continued cultivation during the last 4 years.

6. In conclusion I would again urge on Government the necessity of extending the village site and the alienation of survey Nos 25, 38 and part of 24.

7. Sketch Statement is enclosed.

I have the honor to be,

Sir,

Your most obedient Servant,

D. C. Campbell.

Deputy Commissioner

Kadur District

in the rear of their dwellings. This arrangement will, I am sure, not meet with any opposition from the planting community.

5. Turning finally to the case of Abdul Aziz, I cannot find anything in Mr. Clarke's final order which prohibits him from planting coffee in his kittal.

In August 1893, Mr. Clarke, cancelled the granting of the kittal land.

In July 1894, a notice was issued by the Kadi's office, under instructions from the Deputy Commissioner, to stop any coffee cultivation in the Kalibele village kittals.

In February 1896, the Government ordered resumption of the lands granted by Mr. Clarke and the payment of compensation.

In March 1897 (27th) Abdul Aziz and others signed a Mutchalika accepting compensation, at Rs 5 per garcia of plantain cleared.

It will be seen therefore from the above that although Abdul Aziz was in the first instance not debarred

and camping ground, and the only good sites for houses, should the village extend will be found along the Chikmagalur road down to the stream as shown in the map in dark blue.

3. As regards the present hittals I find that no coffee has been planted in them, with the exception of the plot taken up by one Abdul Aziz, and I would very strongly recommend that the villagers (with the exception of the above Abdul Aziz) should be allowed to retain these holdings, under the understanding that any man found planting coffee within his hittal will be liable to instant eviction from it.

4. The village is situated in the middle of dense jungle and lanta-na, and it will greatly tend to the health and comfort of the villagers if they are allowed to clear, keep clean, and cultivate with vegetables &c, small hittals in

the village of Sollébail on several occasions since taking charge of the District and that he Considers (1) that it is most necessary that the villagers should have Small Hittals attached to their dwelling houses and (2) that the village Site Should be Consider-ably extended as the village which is the Head Quarters of a large planting District is rising in importance.

2. As regards Hittals the Dy. Comr. proposes that as no coffee has been planted in them with the exception of one plot taken up by one Abdul Aziz, the villagers (with the exception of Abdul Aziz), be allowed to retain them upon the District understanding that any man found planting Coffee within his Hittal will be liable to instant eviction.
